"Fahren ohne Grenzen"

– There is a reason for this motto…

Ein Haus für fröhliche Menschen . . .

Motor Bike Hotel Sturm hotel sturm

15 years after the fall of the Iron Curtain in Germany we will come to know what has been left over and we will enjoy passing these inhumane borders without any limits.

The hilly landscapes of Rhön, Spessart, Vogelsberg, Thüringer Wald (Thuringian Forest and Fränkische Schweiz (Franconian Switzerland) are full of twisty roads and will often give us the opportunity to discover the remainings of what used to be the border between the two Germanys and give us an insight of the daily routine of both eastern and western frontier troops.

Theses borders do not exist any longer and parts of the late German history have been reproduced in border museums. The former borderline has changed into a 1.378 km long habitat for many plants and animals

We will now have the chance for a full week of great rides in an area that once was a remote place and now lies in the middle of Europe.

<u>Tour 1</u> „Biosphere Reserve Rhön"

Leads us through Hessian and Bavarian Rhön including the visit of Observation Post „Point Alpha" (http://www.pointalpha.com/)

Die Tour shows us Hochrhönstraße, Wasserkuppe und Kreuzberg (unfortunately we cannot enjoy the beer brewed by the monks of the Franciscan monastery)
