going to a restaurant, it is possible to have the hotel prepare a packed lunch. This can be decided at short notice.

The hotel Sturm is definitely a good hit for bikers. Service, hospitality of both team and management as well as the delicacies of the kitchen make this hotel a special place for national and international guests.

Anette, Ad, Daan, Mees and Bernd have been there and were absolutely positive about the perfect organisation.

Tour 5 „Thuringian Forest“

The South of former East Germany offers a great variety to bikers.

From the peak of the Thuringian Forest through forested mountains (with snow safe winter sports centers like Oberhof and Oberwiesenthal) and small twisty valleys we will be led through the most magnificent countryside.

Leading through the forests, little winding roads will bring you to numerous country restaurants, who trace back to old Bergbauden (refuges for pedestrians and climbers).
